## Wednesday Challenge Form

Group Members: John, Jess, Sona, Maddie, and me

Problem Statement: You must ESTIMATE the Value of pi. No equations or Google allowed. Only mathematics.

Approach: Use the bottom of the mug as our Circle. Then, just do the math and find our “estimate” for pi. I believe we got around 3.2-ish. If that makes sense...

Solution: Monte and co. won. IF YOU ARE READING THIS MONTE I LOVE U. not really

Lessons Learned: Take your time with the Math, and do multiple tests.
